

## Bee craft

### Supplies

- Paper rolls
- Scissors
- Black markers
- Glue sticks and liquid glue
- Black pencils
- Yellow, black and white construction paper
- Googly eyes

### Procedure

1. Cut out a rectangle from yellow construction paper so that the height of the rectangle is the same as the height of the paper tube.
2. Glue the yellow rectangle onto the paper tube.

3. Cut out three strips from black construction paper, and glue them onto the yellow paper tube.

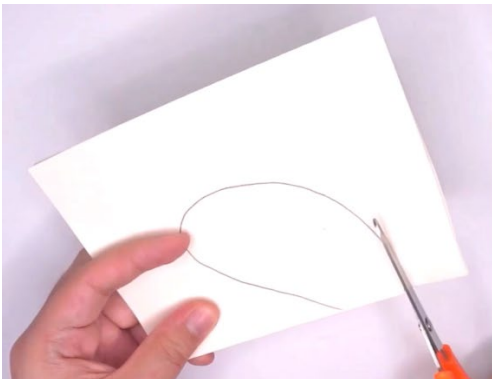

4. Glue two googly eyes onto the paper tube. Liquid glue might be necessary.

5. Cut out two short and thin strips from black construction paper and glue onto the paper tube as antennae.

6. Fold a piece of white construction paper in half, and draw and wing shape along the folded edge. Cut out the wings, and glue onto the back of the paper tube.

7. Write the verse on the wings.

The earth is full of Your creatures. - Psalm 104:24

8. When craft is complete, please return clear bin with supplies to the storage room. All the supplies can be left in the bin and put on the white table—no need to put back each individual supply.
