

Lungs Craft

Supplies

1. Straws with the hole pre-cut
2. Balloons
3. Clear cups with the hole drilled
4. Glue gun
5. Clear tapes

Procedure

1. Glue a stretch of straight straw to the pre-cut hole in the L-shaped straw with glue gun to make a Y-shaped pipe.
2. Tape two pre-cut balloons to the ends of the L-shaped straw.

3. Insert the tail of the Y-shaped pipe through the pre-cut hold in the clear cup and use hot glue to stick the straw to the cup at the hold. Tape a balloon over the mouth of the cup. Stretch the balloon to make the lungs breathe.

4. When craft is complete, please return clear bin with supplies to the storage room. All the supplies can be left in the bin and put on the white table—no need to put back each individual supply.
