

Lantern

Supplies

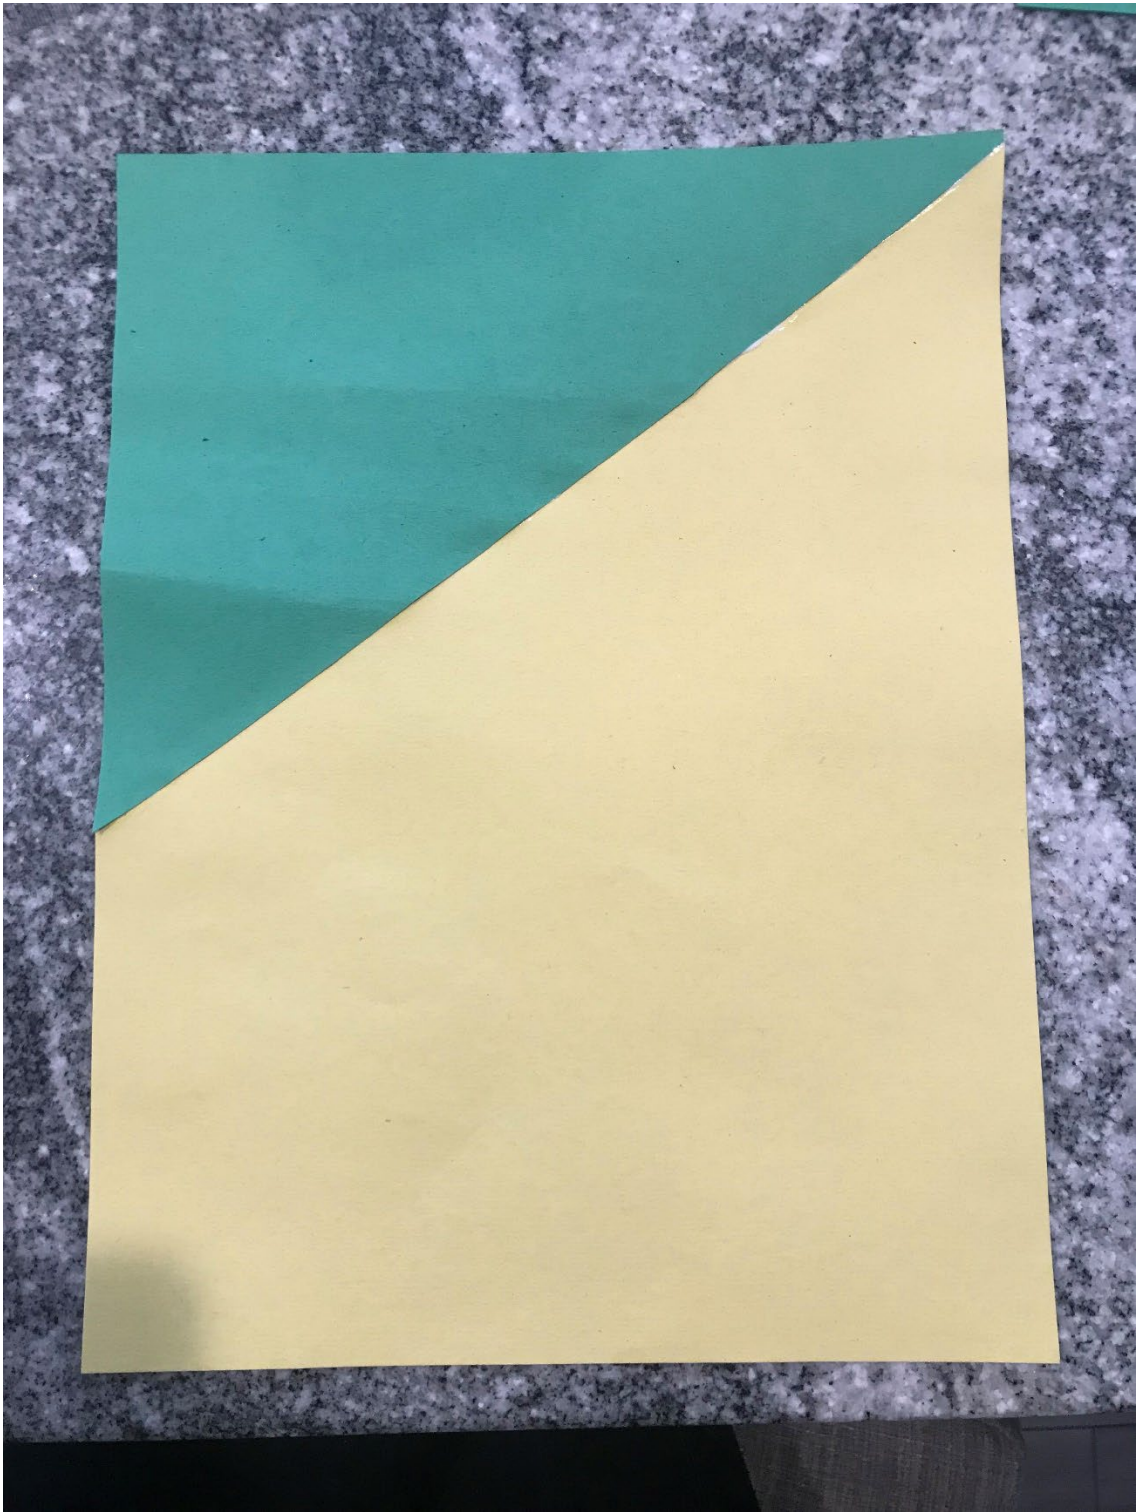

1. Colored construction paper
2. Drawing compass
3. Pens
4. Rulers
5. Scissors
6. Glue
7. Tape
8. Glue gun
9. Pencils

Procedure

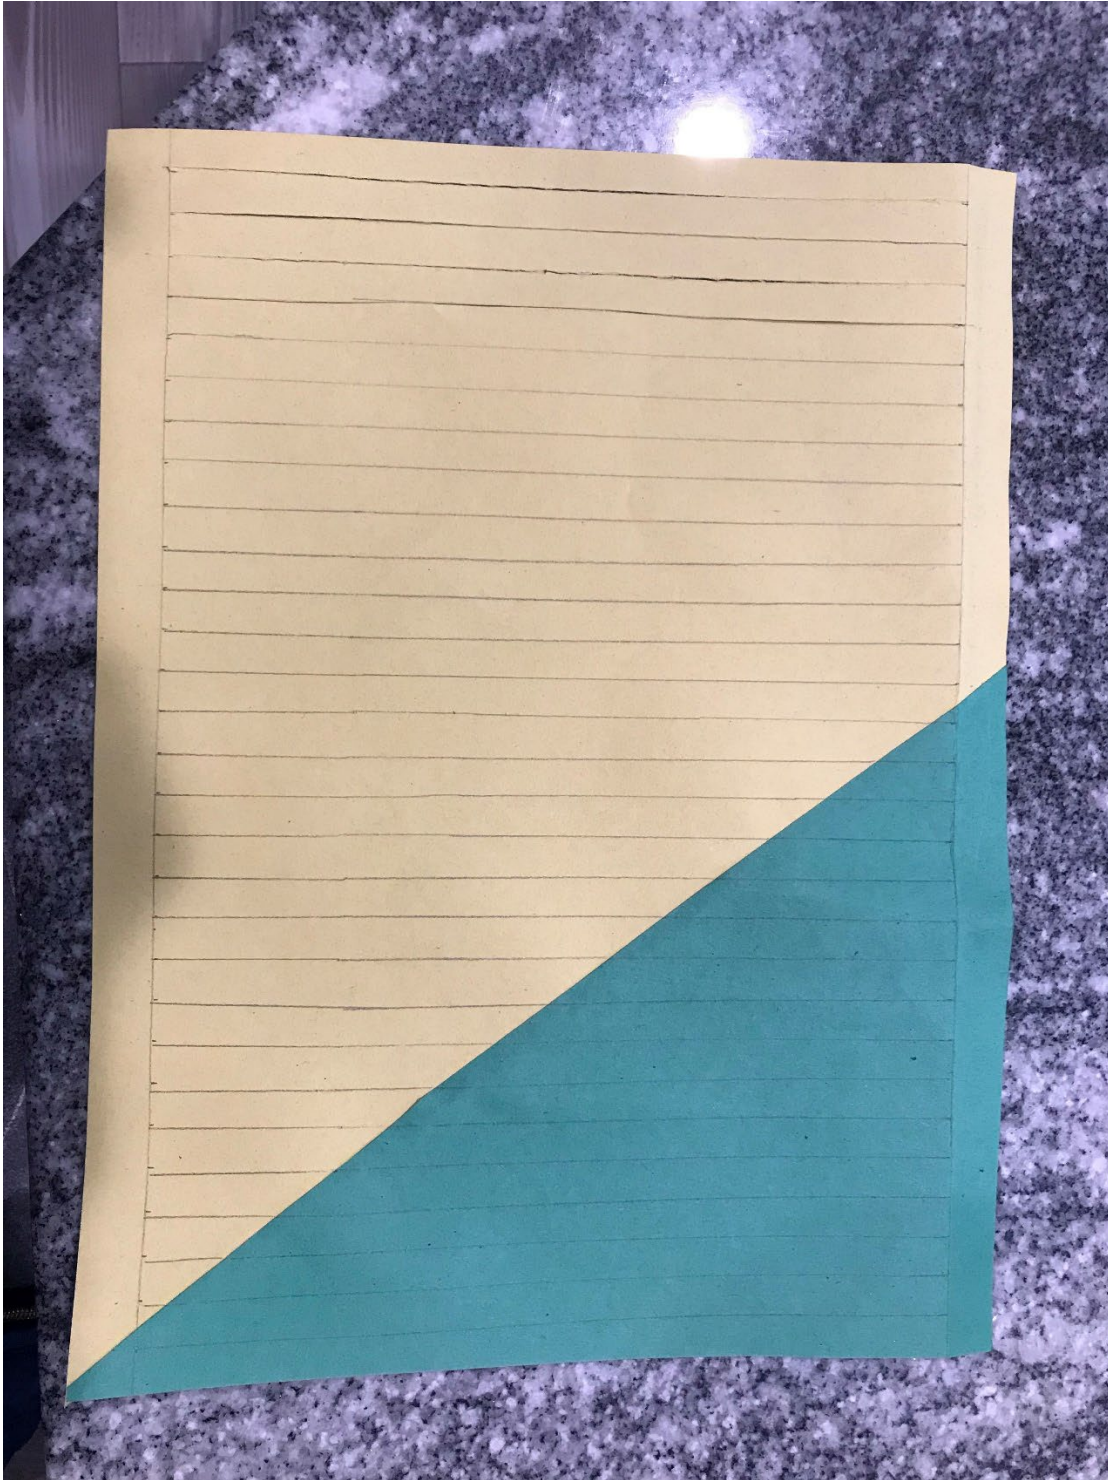

1. Choose two different color construction paper. Draw a diagonal line across using a ruler so you have a triangle.

2. Cut both triangles out and glue to the contrasting construction paper.

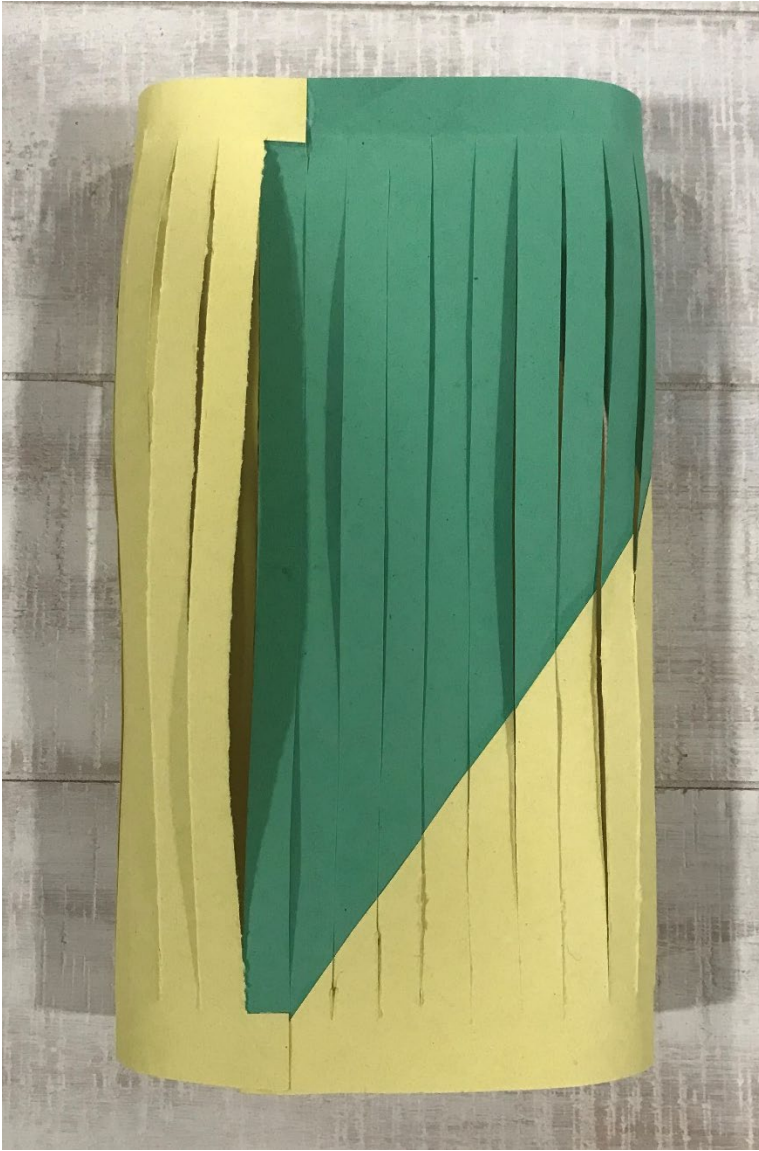

3. On the long edges of both sides of the paper, measure out 1.5 cm and draw a line using a ruler. Then mark every 1 cm along the line and use the ruler to draw lines going across the paper.

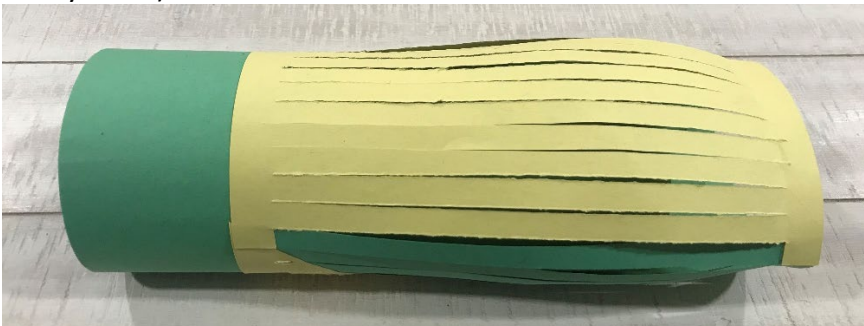

4. Fold one long edge along the drawn line and use scissors to cut a slit on the centimeter mark and cut lines across. Cut out the last strip so you have two tabs.

5. Glue tabs to the opposite edge of paper, creating a cylinder.

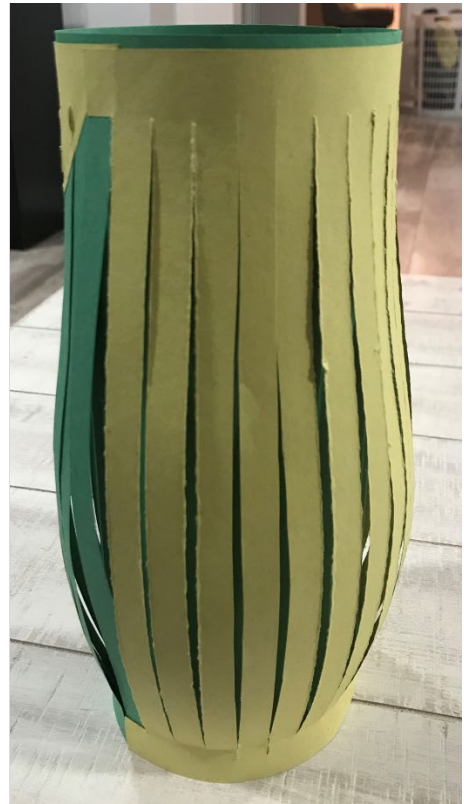

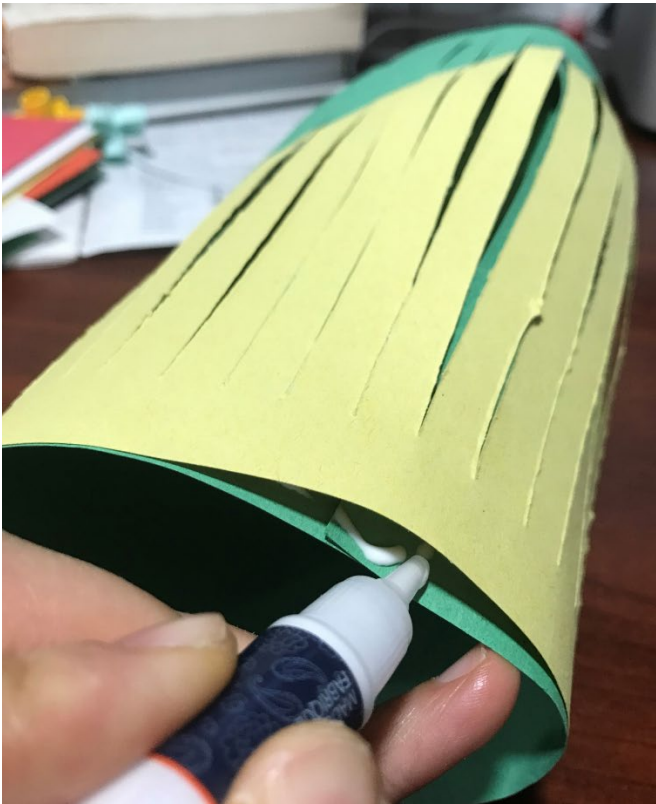

6. Roll up another construction paper to put inside the cylinder and glue the corner of the rolled-up construction paper (adjust as needed so the rolled up paper fits nicely inside the cylinder).

7. Glue the rolled-up paper to the cylinder. This will be the bottom of the lantern.

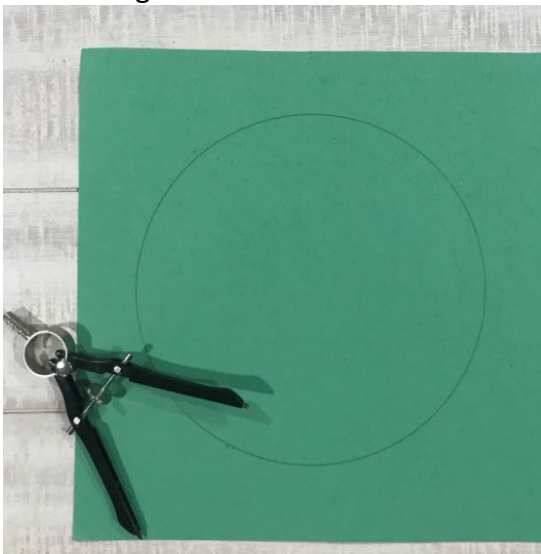

8. Flip the cylinder over and glue the other corner of the rolled-up paper.

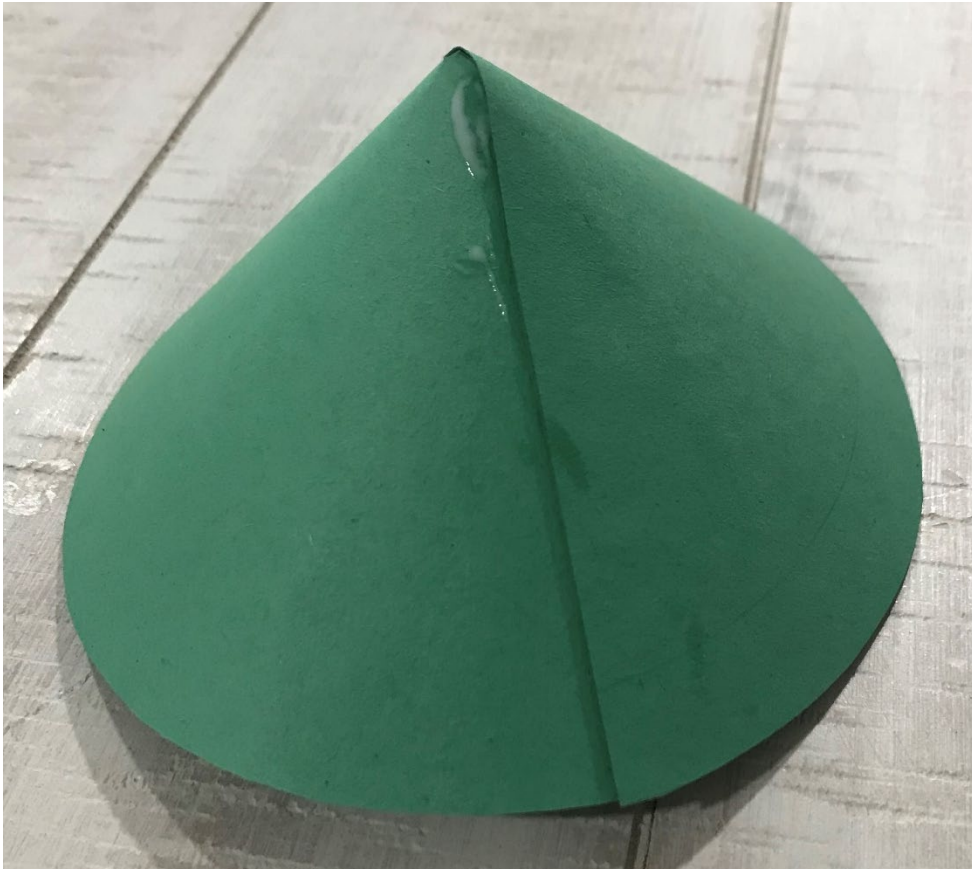

9. Push down the cylinder to make the body of the lantern and glue the top edge of the cylinder. Let the glue dry.

10. To make the top of the lantern: Draw a circle on a construction paper and cut out. Then cut a triangle out of the circle.

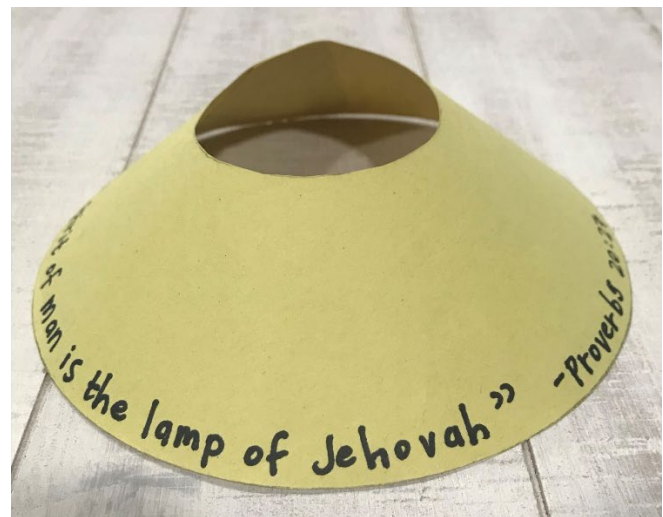

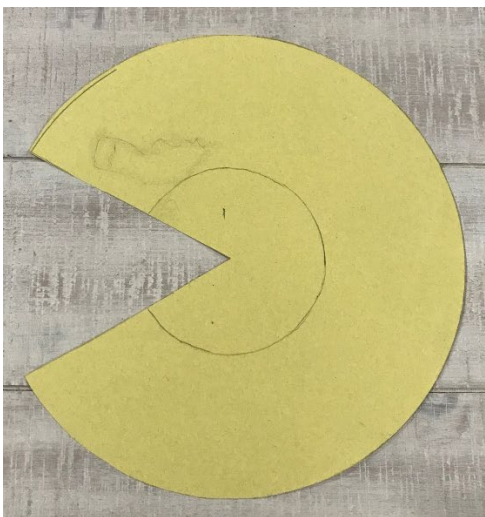

11. Overlap the edges of where the triangle is cut out of the circle and glue to make a cone.

12. To make the base: Draw a bigger circle on a construction paper and cut out. Then cut a triangle out of the circle. Draw a smaller circle and cut out.

13. Write verse: "The spirit of man is the lamp of Jehovah" – Proverbs 20:27

14. Overlap the edges of the base and glue.

15. Tape the base to the bottom of the lantern.
16. To make the handle: Cut out a 1-1.5" strip of construction paper. Make a crease on the two ends.
17. Use a glue gun to attach the handle of the lantern to the cone. Use the glue gun to attach the cone to the top of the lantern.

18. When craft is complete, please return clear bin with supplies to the storage room. All the supplies can be left in the bin and put on the white table—no need to put back each individual supply.
