

Light-bearers Craft

Supplies (all the following are prepared and placed in the classroom)

1. Black construction paper
2. Contact paper
3. Tissue paper
4. Scissors

Procedure

1. Draw the profile of light-bearers on a black construction paper.
2. Cut out the outline. Serving ones might need to offer help.
3. Peel the backing of the contact paper off and place sticky side up.
4. Put profiles of light bearers onto sticky side of contact paper.

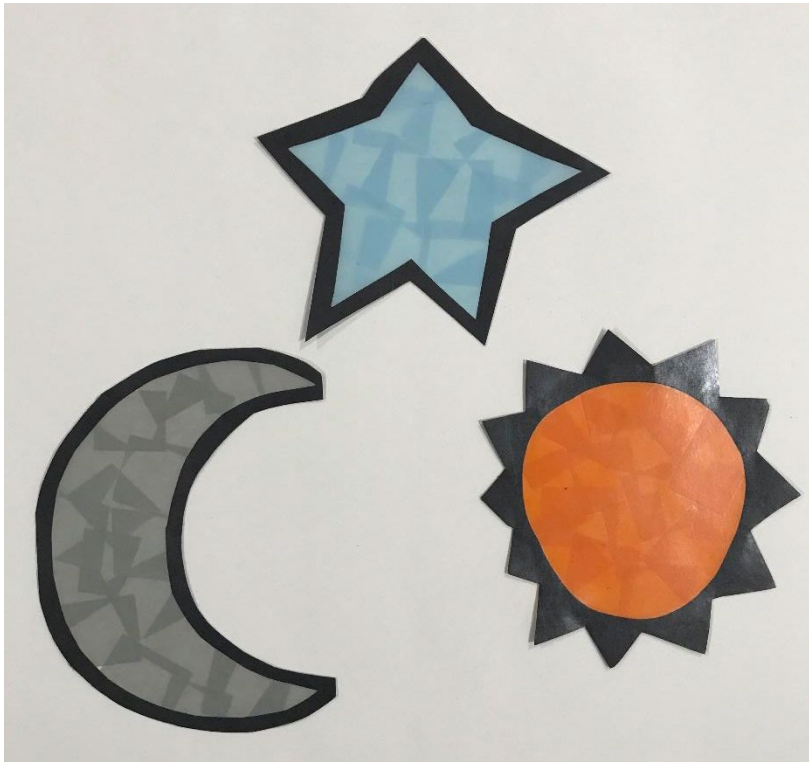

5. Choose colored tissue paper for each light-bearer and cut out some small squares.
6. Add tissue paper, covering entire body of the light-bearer. Make sure there aren't any gaps inside the profile.

Continued on next page...

7. Cut off remaining contact paper and tissue paper.

8. Take the light-bearers home, hang them to windows and watch them catch the sun's rays!

9. If time permits, allow children to make more!

10. Clean up and return unused material to the storage room.
