

Sun-catchers Craft

Supplies (all the following are prepared and placed in the classroom)

1. Black construction paper
2. Contact paper
3. Tissue paper
4. Googly eyes
5. Glue sticks or glue guns

Procedure

1. Draw bug profiles onto black construction paper.
2. Cut out bug outline. Serving ones might need to offer help.

3. Choose colored tissue paper for bug and cut out small squares.
4. Peel the backing of the contact paper off and place sticky side up.
5. Put bug onto sticky side of contact paper.

6. Add tissue paper, covering entire body of bug. Make sure there aren't any gaps inside the bug body.

7. Glue googly eyes on and cut remaining contact paper around bug.

Continued on next page...

8. Allow children to make other bug or leaf designs if time permitted.
9. Take the sun-catchers home, hang them to windows and watch them catch the sun's rays!
